- Percentage: 90%

## Skills

**Programming Knowledge**
- C, Core Java, Python

**Web Development**
- HTML, CSS, JavaScript, ReactJS, PHP

**Teamwork**
- Strong team-oriented mindset, flexibility, and capability to contribute effectively in diverse environments.

**Time Management**
- Skilled at managing tasks, setting priorities, and finishing on time.

## Projects

**1. Audio to Sign Language Translator Using Python**
**Technologies Used**: Python, Speech Recognition, OpenCV, TensorFlow
**Description**: Developed a Python app that converts audio to text and translates it into sign language gestures using speech recognition and image mapping.
**Main Functions :**
- Converts audio to text.
- Maps text to sign language gestures.
- Improves communication for the hearing-impaired.

**2. Characterizing and Predicting Early Reviewers for Effective Product Marketing on E-commerce Websites**
**Technologies Used**: Java, Machine Learning
**Description**: Developed a machine learning model to predict early reviewers for e-commerce products, enabling businesses to optimize marketing strategies and product launches.
**Main Functions :**
- Analyzed customer behavior and purchase patterns.
- Predicted early reviewers to enhance marketing effectiveness.

**3. Chatting Application Using Java**
**Technologies Used**: Java, Socket Programming

**Description**: Created a real-time chatting application where users can send and receive messages using socket programming for communication.

**Main Functions :**

- Instant messaging between users.
- Server-client communication.

## Organizations

**Mithran Rotaract Club (Member)**                                    2021/09

- Focused on identifying unmet needs in communities and offering support through initiatives such as planting saplings, raising awareness about helmet safety, and making donations. These efforts aim to bring hope, improve lives, and encourage positive change.
